Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment (19.4.2017)
1	Shortage of residents is 7.46%	<p>There was no shortage of Residents on the day of the inspection.</p> <p>We had the required number of 67 Residents (SRs 43, JRs 24). However, the deficiency of one SR occurred, as the assessor did not accept his DNB qualification.</p> <p>Dr.K.Praveen Kumar, DNB Anaesthesia, was not counted as SR by the Assessor. He has been working with us as SR, since 15/12/2015 i.e for over 18 months and had been accepted in the previous assessments.</p> <p>However Dr. K. Praveen Kumar has been replaced by Dr. T. Sirish Kumar MD Anesthesia. His declaration form is enclosed.</p> <p>(b)Four Junior Residents were not counted, as their salary statements from the bank were not available at the time of the inspection. Please note that this requirement is not stipulated by the MCI MSR, this is because several of the Junior Residents do not stay for long periods and they move as they need to prepare for the PG NEET examination and attend PG counseling which have commenced. We enclose the pay slip signed by the HR, for these four Junior residents.</p> <p>i. Dr. M.Mark Edward Emp No. 700264 ii. Dr. Abhinay Emp No. 700268 iii. Dr. G. Vidhadhar Emp No. 700258 iv. Dr. G. Alfia Khan Emp No. 100239</p> <p>Hence, if (one) Sr.Resident and (four) Jr. Residents were counted, the deficiency of residents would have been in the</p>	<p>NIL (deficiency rectified)</p> <p>All four newly appointed junior residents and one Senior resident were found corrected and genuine. Deficiency rectified.</p>

		<p>permissible limit.</p> <p>Rectification:</p> <p>1. In order to avoid the ambiguity in the interpretation of equivalence of DNB to MD/MS, we have now appointed another additional SR Dr. Sirish Kumar.T, in the department of anaesthesia.</p> <p>2. The above mentioned 4 junior residents have left and been relieved. The following 4 Junior residents have been appointed namely:</p> <p>1. Dr. Santosh Kumar 2. Dr. Mudasser Hussain 3. Dr. Saira Begum 4. Dr. T. Sonia</p>													
2	Bed Occupancy is 72.76%, at 10 am on the day of assessment.	<p>The bed occupancy on the day of assessment was 87% at 10.00am as also recorded by the assessors themselves on page 18 of the assessors report reproduced as under.</p> <table border="0"> <thead> <tr> <th><u>Item</u></th> <th><u>On day of assessment</u></th> </tr> </thead> <tbody> <tr> <td>OPD attendance at 2:00pm on the first day</td> <td>- 1130</td> </tr> <tr> <td>Casualty attendance (24 hrs data)</td> <td>- 62</td> </tr> <tr> <td>No of admissions</td> <td>- 36</td> </tr> <tr> <td>No of discharges</td> <td>- 37</td> </tr> <tr> <td>Bed Occupancy% at 10 am on first day</td> <td>- 87%</td> </tr> </tbody> </table>	<u>Item</u>	<u>On day of assessment</u>	OPD attendance at 2:00pm on the first day	- 1130	Casualty attendance (24 hrs data)	- 62	No of admissions	- 36	No of discharges	- 37	Bed Occupancy% at 10 am on first day	- 87%	Bed occupancy on day of assessment is 81.5%. Deficiency rectified.
<u>Item</u>	<u>On day of assessment</u>														
OPD attendance at 2:00pm on the first day	- 1130														
Casualty attendance (24 hrs data)	- 62														
No of admissions	- 36														
No of discharges	- 37														
Bed Occupancy% at 10 am on first day	- 87%

		<p>In the same page under the remarks column, they have mentioned 72.76% at 12.30pm. As per the MCI letter No 34(41)/2015 Assessment cell/65031 dtd. 08.07.2016, the two census time slots that have been stipulated are 10.00am and 2.00pm. At 2.00pm, our bed occupancy was 91%.</p> <p>As per practice, every day after the rounds of the various wards made by the concerned consultants which normally finish by 10 am, the patients are discharged as per the decision taken in this regard. In the mean time the patients are discharged as per the decision taken in this regard. In the mean time the patients who are admitted through the OPD start trickling in to the various wards of the hospital. hence, it is felt the figure of the bed occupancy should also have been taken into consideration at 2.00pm as per our request.</p> <p>We enclose the patient census which includes admissions and discharges on the two days of the inspection.</p>	
3	<p>Wards a) Surgery Ward- In male ward, there were only 5 post operative patients, 8 patients were admitted on 16.03.2017, with no diagnosis or treatment</p> <p>-blank sheets photo attached.</p>	<p>Department of Surgery has 120 beds, distributed into 4 units/wards, of 30 beds each, with a male: female distribution of 60 each. On the day of inspection, total no. of patients in both Male & Female wards was 91 in the 120 bed. In one of the Male wards visited by the inspectors, there were 23 patients, 5 of which were post operative.</p> <p>It is stated that the observation with regard to case sheet not written for the 8 patients, it is to inform that all the faculty/JR & SR from the complete hospital and the college were called by the assessors at about 10:30am for marking the attendance and headcount. Under this eventuality it was not</p>	<p>a) In Surgical ward – on random checking patients were genuine and case paper were filled with complete detail of investigations and treatment chart. Certain verified case paper attached. Deficiency rectified.</p>

<p>In Female ward there were 5 post operative patients, 10 patients with diagnosis of fissure, and 10 patients with minor complications not meriting admission.</p>	<p>possible to write the case sheets.</p> <p>In the Female ward, there were 20 patients, among whom five were post operative .The clinical conditions of these 20 patients included Thyromegaly, Cholelithiasis, Carcinoma breast, Incisional hernia, Umbilical hernia, Hydatid cyst of spleen, fistula in ano, ischio rectal abscess, proctocolitis, pilonidal sinus, Haemorrhoids, and associated ano rectal conditions with Fissure-in ano etc, which required admission and further investigations. You would observe from the listed cases operated on the day of the inspection, by the department of Surgery, we had 4 major surgeries: Mastectomy, Laproscopic cholecystectomy and 2 hernioplasties and, 3 minor surgeries i.e fissure - in ano, breast abscess and a wound that required secondary suturing.</p> <p>Furthermore, we attach the ICD 10 coding of the 375 patients admitted in the department surgery during the month of February 2017. These medical conditions necessitated over 90 Major and 285 Minor surgeries.</p>	<p>In female wards patients were genuine and different diagnosis patients were there. On cross verification done with the patients and with case papers few case sheet attached. Deficiency rectified.</p>
<p>(b) Orthopedic Ward: 10 patients of Polyarthralgia, with no evidence of any</p>	<p>10 patients of polyarthralgia were admitted for, evaluation of: Spondyloarthropathy, Rheumatoid arthritis, Gouty arthritis, Poncet's Polyarticular Rheumatiod arthritis with possible</p>	<p>b) Orthopedic ward patients were of different diagnosis with investigations which require immediate treatment.</p>

<p>diagnosis, and 5 patients of backache, not meriting admission.</p> <p>No postoperative patients in Ortho Female ward.</p>	<p>synovectomy, and physiotherapy for improving mobility, and providing pain relief. There were 5 patients with low back ache, who were admitted for evaluation of lumbar spondylyosis, degenerative disease, IV disc prolapse and for pain relief.</p> <p>There were three post-operative patients in the female Orthopedic ward with following procedures of Bipolar arthroplasty, Periprosthetic fracture, with a lock-in plate and cable fixation and bone grafting, and an Infected tibial implant which required removal</p>	<p>Certain verified patients case paper attached. Deficiency rectified.</p> <p>two patients of orthopedic female were in post operative ward.</p>
<p>(c) Gynecology Ward: 18 patients admitted for minor complaints, which did not merit admission.</p> <p>Only 2 post operative patients.</p>	<p>We have 30 beds in the Gynecology ward, 25 patients admitted. Beside the 4 post OP patients (see below). The remainder 21 patients included 6 with Abnormal Uterine Bleeding, 2 with Post -menopausal Bleeding with varying degree of Anemia, 2 patients with Pubertal Menorrhagia, and 1 each with Adenomyosis Fibroid uterus, PID, Scar Endometriosis, Bartholins abscess, Pain Abdomen and Ovarian cyst for evaluation.</p> <p>There were 4 post -operative patients. Two in the Gynecology ward beds, and two patients operated the day before awaiting transfer from the SICU.</p>	<p>In Gynacology ward patients were verified and found genuine. List of patients with their diagnosis is attached and verified case paper also attached. Deficiency rectified.</p> <p>In post operative ward there were four patients. Out of which one patient with septoplasty with haemorrhagic disorders was under active treatment. Deficiency rectified.</p>
<p>(d) Pediatrics Ward: 25 children admitted, who did not have any complaints meriting admission. Sitting or</p>	<p>The Pediatric ward has a total of 60 beds, in 2 wards of 30 beds each. On the day of inspection, there were 40 patients (19 and 21), in the two wards. Eleven patients had been admitted for seizures, shortness of breath and high grade</p>	<p>On gross verification in Pediatrics Ward patients were found genuine and different acute illness patients were there. Deficiency rectified.</p>

	playing in cots.	fever. They had been acutely ill for a couple of days prior to admission, and were recuperating, therefore appearing seemingly normal. Hence, it was perceived by the inspectors during the ward rounds, that they did not qualify for ward admission. The institution only admits the genuine patients who need admission, moreover the poor patients who are coming from the nearby villages to the hospital emphasize for admission till their child gets well.	
4	ICUs: ICCU & MICU are combined. PICU & NICU are not available. In SICU, none of 5 patients required intensive care; they were post-operative cases kept in SICU.	The observation with regard to the combined ICUs has been rectified by creating separate NICU & PICU consisting of 5 beds each. Only the patients who require Intensive care either postoperatively or otherwise referred from the surgical ward or through the casualty are kept in the surgical ICU. There were 3 patients in the SICU as against the observation Nil. For surgical patients, we have a separate 5 bed ICU, and 10 beds for post- operative recovery. The post operative recovery room had 5 patients, and the SICU had 3 patients. Assessor interpreted post operative ward as SICU, as both are situated adjacent to each other.	There were separate ICU, ICCU, MICU, PICU and NICU. ICU 5 beds, ICCU 5 beds, MICU 5 beds, PICU 5 beds , NICU 5 beds all the beds of above were 80% occupied. All were functioning with required instruments like multi para monitor, ventilator, infusion pumps, ETO sterilization and infection control. SICU have 5 beds. On the day of assessment there were four patients. Deficiency rectified.
5	Casualty: 15 beds are available in the Main Casualty, against requirement of 20.	We had overall 20 beds in the ER – distributed as under: 15 in the ER (Main room) 3 in the adjacent Geyne Casualty 2 in the Triage room of the ER.	Casualty have 20 beds out of which 12 patients were shifted in the morning which was mentioned in their record book. At 10.00 am there was one patient came with hemiplegia

		To meet with the observation we have added another 5 beds over and above to the already beds available as stated above.	(C.V.Stroke) came with ambulance and treatment was started. Video attached. All the casualty beds have essential monitors like pulse oximeter, multi para monitor, oxygen pipeline and they were functioning. Deficiency rectified.
6	ETO Sterilizer is not available.	We have an ETO sterilizer, which was shown and accepted during the previous four inspections. On the day of inspection, the ETO sterilizer was not in its site. It had been sent to the bio medical department, for servicing and maintenance. We have now serviced this and placed it in the CSSD room.	ETO sterilization was functioning in CSSD. Deficiency rectified.
7	UHC: Specialists' visits are not organized.	UHC - Specialists' visits are organized from the very beginning. There are designated specialist rooms, with the clinical records being maintained. The specialists visit the facility on prescribed days, as per the roster enclosed.	Presently specialists visit in UHC is functioning from Monday to Saturday and name of the person with their specialty and day on which specialist visit. Signages were there on cross verification with registers it was found functioning. On the day of assessment record of patients visited by specialist are video graphed and attached. Deficiency rectified.
8	Other deficiencies as pointed out in the assessment report. (a) Only two ventilators and 9	Overall we have 15 mechanical ventilators in the institution, and their placement is distributed as follows: ICU - 2, ER -2, SICU 3 and OT - 8. Additionally, we have 42	All the ventilator were verified at ICU, SICU, ER, OT. Multi channel monitors also verified in ICU, ward, ER, OT, SICU, Triage area and all were found

We have received
a copy of this assessors
report and we have
included our
comment
page 46
and 47

Signatures of Dean/Principal

Summary of assessment: Dean comments for the deficiencies pointed out by the assessors:

1) Surgery wards: The 08 history sheets of patients admitted into the surgical wards could not be written up as these patients were directly admitted into the wards from the OPD. The SR and JRs had gone to sign the attendance sheet in the presence of the MCI assessor at the Medical College in the morning and, were not able to write it up before the commencement of ward visit by the respective MCI inspectors. In the OB - GYN section we have 100-120 deliveries /month with over 20 obstetric patients admitted. Few Gynaec cases come from afar areas and also referred from our PHCs and RHC are admitted for evaluation until proved to have no pathology. We have Gyneac post operative cases two in the ward and two were in the surgical ICU which are to be included.

2) We have overall 20 beds in ER - distributed as follows: 15, in ER (main room) three, in labour room (adjacent room of ER); and two, in the triage room of the ER. Hence it is not deficient in bed capacity.

3) We have a well -equipped centralized medical ICU of 15 beds, of which 5 are dedicated to the PICU. Additionally, we have a Nursery with 3 baby incubators and separate phototherapy machine, providing level 2 care for neonates. The MSR of MCI (Jan 2017 page 20) stipulates under Medical and Allied specialities ICU, ICCU and Paediatrics that an intensive care area should be available. This area is available with us. The patients in the 5 PICU beds are manned by Paediatricians. On the day of the inspection (16/3/2017) there was a paediatric patient with sickle cell anemia in crisis being managed by the Paediatricians. In all previous inspections this point about a separate PICU has never been raised. For surgical Patients we have a separate 5 bed ICU, and 10 beds as Post- operative recovery.

4) Overall we have a 15 ventilators in the institution their placement is distributed as follows ICU - 2, ER -2, SICU 3 and OT - 8. Additionally we have 42 multichannel monitors distributed to the ICU 15, Ward 10 , ER 6, OP- 6, SICU 5, Post, and Triage- 1. We shift the needed equipment to the various areas as and when needed.

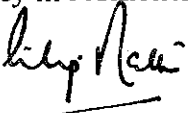

5) Deficiency in Residents: Equivalence of DNB to MD/MS: As per the Gazette notification 213/1st Oct - 2012 Part III See 4 para III "Candidates who have undergone DNB training (broad specialties) other than in hospital mentioned in (II) above shall undergo additional year of senior residency in a MCI recognized institutions".

a) Dr. K Praveen Kumar DNB in Anesthesia has been our Senior Resident since 15-12-2015.

b) The JR's were cited as deficient, as their salary statement from bank is not available. We will obtain the statement. We enclose their pay slips signed by payroll for these 4 Jr. Residents

1. Dr. M. Mark Edward Emp No. 700264
2. Dr. Abhinay Emp No. 700268
3. Dr. G. Vidyadhar Emp No. 700258
4. Dr. G. Alfia Khan Emp No. 100239

Hence, if the deficiency in Sr. Resident (1 Nos) and Jr. Resident (4 Nos) as cited above is accepted the deficiency in residents will be NIL.
