**4. Verification of compliance submitted by institute:**

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1.	OPD attendance on day of assessment is 1,043 against requirement of 1,200.	<p>The assessors counted OPD figures of 1043 at 12.53 pm (please refer attached HIS database record), however, as per this record total number of OPD patients were 1251 at 2.00 pm</p> <p>(a copy of computer printout of 34 pages starting from Sr. No. 1 to Sr. No. 1251 is attached for verification)</p>	<p>A total of 250 OPD cases at 10.45 am in all the department registers, verified and signed by assessor with photography proof. ( Ortho- 25, TBCD-0, ENT-22, Opthal-29, Surgery 35, Pediatrics- 25, DVL-22, Psychiatry-12, Dental 17, Medicine 55, OBGyn -8)</p> <p>OPD Data of 1309 given by institute is inflated</p>
2.	Bed Occupancy on day of assessment is 66.60 % as verified by the assessors.	<p>As per hospital record and database there were 551 patients on the beds in different wards.</p> <p>Based on this figure, Bed occupancy comes to 83.69%</p> <p>However the assessors rejected 118 patients on various grounds &amp; counted only 433 patients thus</p>	<p>77.23% Bed Occupancy</p> <p>Some of the Patients admitted for trivial complaints for prolonged duration in the wards which do not merit admission (Migrane, fever, Bronchitis, back ache, pains, anxiety in Medicine, and Sebaceous cyst, ganglion, UTI, muscular pain, small renal non obstructive calculi (4-5 mm) in Surgery )</p>

		bringing the figure of bed occupancy to 66.60%	
		Which 118 patients, what ailments and on what grounds were rejected was not explained to us.	
3.	Deficiency of admitting patients with trivial complaints still remains .E.g., in General Medicine wards, out of 138 patients, only 100 can be considered as having been admitted properly .	<p>We have submitted our representations dated 20.07.17 &amp; 25.07.17 stating the facts &amp; clarification.</p> <p>Out of 138 patients, which 38 patients of General Medicine wards had trivial complaints was not explained to us.</p>	<p>Some of the Patients admitted for trivial complaints for prolonged duration with no active case management in the wards which do not merit admission (Migrane, fever, Bronchitis, back ache, pains, anxiety in Medicine, and Sebaceous cyst, ganglion, UTI, muscular pain, small renal non obstructive calculi (4-5 mm) in Surgery )</p> <p>Many neurosurgical cases admitted in surgery ward.</p>
4.	Data of Minor Operations submitted by Institute seem to be inflated .	<p>MCI requirement of minor OT is only TWO, while we have SIX minor OTs as follows:</p> <ol style="list-style-type: none"> <li>1. General Surgery</li> <li>2. Orthopedics</li> <li>3. ENT</li> <li>4. Ophthalmology</li> <li>5. Obst &amp; Gyane</li> <li>6. Dermatology</li> </ol>	<p>A total of 14 Minor Operations as Verified by assessors ( Surgery - 2; Ortho-4, Opthal-3, ENT-0, Gynec-5, Casualty -0, DVL-0)</p>

CMCH/Dean/2017/1153

Date: 24.09.2017

To,  
The Secretary,  
Medical Council of India  
New Delhi

**Subject: Representation regarding Pre PG Compliance Verification  
Assessment Dtd: 23.09.2017 (Saturday)**

Sir/Madam,

Compliance verification assessment inspection for Pre PG assessment was conducted on 23.09.2017 to verify the deficiencies pointed out by the Medical Council of India vide their letter no. MCI-34(41)(UG)/2017/MP/Med./, Dated: 23.09.2017

We wish to record certain facts with documentary proofs with respect to negative observations recorded by the assessors shown as deficiencies.

A point wise reply on the deficiencies recorded in the copy of assessment report is attached herewith as **Annexures - 1 & 2**.

The facts of the matter and the proofs therein conclude that there are no deficiencies with regard to patients' number and the faculty/residents' number.

It is with great pain that we are submitting the manner of inspections conducted by the assessors on the three occasions spread over four months that show the deficiencies which are mostly of subjective nature and are not as per MSR issued by MCI. The H'ble court in many cases have observed that the subjective observations which are not as per MSR cannot be allowed by the law.

The following chart shows our status in the last three inspections: -

Date of Inspection	Inspection Type	Faculty Deficiency (%)	Residents Deficiency (%)	Bed Occupancy (%)
03 & 04 May 2017	Pre PG Assessment	5.18*	1.2*	64.37
20 July 2017	Compliance Pre PG Assessment	2.22*	NIL*	66.6
23 Sep 2017	Compliance Pre PG Assessment	7.41	15	77.23*

Note: \*denotes No deficiency. Faculty/Residents allowance is 5%.  
Bed occupancy allowance is 75%.

(Copy of SAF Form AIII of previous years enclosed, **Annexure - 3**)

The above facts are evidence of our record of keeping faculty and residents as per the MCI requirements. The deficiency in Bed occupancy is because of the arbitrary and subjective assessments of the assessors rejecting real patients to bring down the occupancy below 75%.

We have submitted our representation from time to time with sufficient documentary proof but unfortunately they were not accepted and we are compelled to face inspections and failed on the same Non MSR grounds.

As regards the assessment dated: 23.09.2017, the Co-ordinator of Assessors' team did not allow any discussion on the matter of deficiency and prepared the report without listening to our facts. The behavior of the Co-ordinator was very harsh, non-courteous and threatening which is totally against the assessors guide issued by MCI. The report was forced upon the Dean for his signature without any discussion. Hence it is not acceptable. Our objection/reply is attached herewith for your kind perusal.

If the authorities take a sympathetic and logical view of the facts submitted by us, the **Faculty deficiency will come down the 2.9% and the Residents deficiency to 1.2%** which is well below the allowed limit of 5%. As such there is no deficiency in Bed occupancy and OPD data as mentioned in the report.

It is humbly submitted that the matter may be sympathetically considered to award the Pre PG qualification and clear further steps to open PG courses in Clinical subjects applied by us.

Thanking You

Yours Faithfully

Remark regarding duplicate register in Obs & Gyn OPD	Chirayu Medical College & Hospital is running GNM, BSc. & MSc. Nursing Courses. These nursing students are posted in various wards and they take their notes and assignments in their personal note books for learning, reading and follow-ups of their patients. The assessors remark “There are duplicate registers being maintained in OPDs. Proof of the actual Gynec OPD register is being attached” is not true. The fact is that the assessors took one of such note book of a nursing student considering it as official departmental register. This note book is written in pencil and bears no sign of any faculty or teacher. This is not a prescribed and authentic register and the institute is in no way concerned with this personal note book of nursing student. The departmental register is printed and bears the name of the department (Copy of student’s note book and Copy of OPD register of the department, assessor was shown Actual register on which she signed dated 23.09.2017 at 10:40am is enclosed for your perusal. <b>Annexure – 4</b> )		
OPD attendance	The Computers of each OPD are connected to the central registration counter. The patient data entered at registration counter immediately shows data of the OPD computers. The system works under HIS software which is authentic. The manual registers are maintained only as backup record which is updated from time to time. If the assessors collected data from the computer the wrong figures recorded by them could have been avoided. The attached list of OPD patients at 10:45 am is showing 479 patients which is recorded in real time in the second column of date. Hence the figure of 250 noted by the assessors is incorrect. The final OPD figure at 2:00pm is 1309 patients which can be seen in the computer printout of OPD registration in real time. Hence the remark is incorrect and unacceptable. (The computer printout of OPD cases is attached as proof , <b>Annexure – 5</b> )

### 4. Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Data of OPD attendance given by the institute seems to be highly inflated	Assessors verified 313 OPD patients at 10.10 am. Peak inflow of the patients is attained after 11 am as they come from rural areas & distant villages. OPD attendance on the day of inspection was 1380 till 2 pm. The figures of 1380 is genuine for the day & not inflated.	OPD attendance – 1043, which is deficient compare to 1200 requirement as per MSR.

2	<p><i>After taking detailed round of wards &amp; enquiry with respective treating doctors &amp; paramedical staff, it was found that significant number of indoor patients in Medicine had minor ailments like URTI, Headache, Shoulder pain, weakness who did not require admission.</i></p>	<p>Patients come from far away villages of poor socio-economic status and once they come, they need complete evaluation and treatment before they go home.</p> <p>Admission of these patients by different teachers/ treating doctors of different departments is the subjective decision to admit, diagnose and treat them.</p> <p><b>In clinical practice, no patient may be considered as having minor ailment and overlooked unless investigated thoroughly &amp; proved otherwise; hence admission is required.</b></p>	<p>Deficiencies reported from GOI/MCI is still not rectified. Out of 138 patients in General Medicine only 100 patients are counted, because of trivial nature of complaints mentioned on admission records. Few of the photographs of such patients are also attached in DVD and Pen Drive submitted.</p>
3	<p><i>In Medicine wards, many patients were having malignancies of various types who were admitted just for bed occupancy. Similarly in Surgical wards, many patients were admitted for long without active management.</i></p>	<p>Malignancy is diagnosed and is being treated medically or surgically by our physicians and surgeons posted as Assistant/Associate Professor in General Medicine and General Surgery.</p> <p>Patients of Malignancy are good clinical material for under graduate teaching.</p> <p>Hence not counting number of Malignancy patients is not justified. There can be no patient labeled as</p>	<p>About Medicine wards, findings are as described in point no. 2 above.</p>

		superspeciality patient as we do not have any superspeciality department. Surgical patients take a longer time for diagnostic as well as fitness for surgery and consent/readiness of the patient for surgery. No patient is left unattended and in waiting in wards unless there is some specific reason.	
4	<i>Most of the patients admitted in O.G., Surgery, Tb &amp; Chest &amp; Skin &amp; VD wards were admitted for &gt;1 week without basic investigation and appropriate treatment as per their diagnosis.</i>	Patients are admitted, investigated and treated in minimum possible time. We assure that we will take utmost care with regard to the treatment of patients.	Deficiency rectified.
5	<i>On physical verification of Drugs dispensing register, only 231 patients were dispensed drugs on a day previous to day of assessment.</i>	Drug dispensing register is maintained for <b>free drug dispensing</b> only. Assessor noted 231 patients in this register. This number is for the patients who were provided the drugs free of cost. For drugs purchased by rest of the patients, separate entry is made in billing computer. However, many patients prefer to purchase drugs from outside.	Deficiency rectified.
6	<i>In view of above, bed occupancy is 64.37% as verified by assessors.</i>	Actually the bed occupancy on the day of inspection was 84.76% (551 out of 650 sanctioned teaching beds). The assessors have rejected 133 patients out of 551 on the basis of their own criteria.	Bed occupancy is 66.6% as verified by assessors

		<p>As per MCI requirement for UG, <b>total number of patients</b> in the hospital are counted for the purpose of calculation of bed occupancy. The count should not be department specific.</p> <p><b>(A) A total of 54 patients were not counted in the departments of ENT, Ophthalmology, Psychiatry, TB Chest &amp; Dermatology.</b></p> <p><b>(B) The assessors have also not counted 22 patients admitted in Medical wards on the ground of being the cases of malignancy. These patients should have been counted, as malignancy of all types is a part of UG curriculum.</b></p> <p><b>(C) There can be no patient labeled as superspeciality patient as we do not have any superspeciality department.</b></p> <p><b>If the above 76 patients are added to the assessors' number of 418, the total shall be 494 which is 76%.</b></p> <p><b>In addition to this, the remaining 56 patients were not counted on subjective grounds.</b></p>

7	<i>Data of laboratory investigations provided by the institute are grossly inflated and do not match with IPD &amp; OPD figures.</i>	As per Assessor's report <b>185 samples</b> were received till 12.45 pm. One sample is used for multiple investigations that includes Biochemistry, Haematology & other sections of the Lab. Samples were continually received even after Assessors' verification and figures given for Biochemistry, Haematology & other sections of lab are for the whole day and true as per record and in proportion to the number reported. The data shown by the institute is true & as per record. Number of tests are commensurate with the large number of OPD & IPD patients.	Deficiency rectified.

**Comments:**

- 1. Dr. Rohit Singh, Assistant Professor in the department of TB was not paid any salary at the time of faculty verification his salary was shown to be credited in his bank account in the evening on the day of assessment.

Comment by Dean: Number of admitted patients in morning at 9 AM on 20-7-17 is 544 on teaching beds, & is No. of patients counted by Assessors at 10 AM & 11 AM alongwith signatures of professionals & Nursing staff is with Assessors, having 508 patients. In afternoon at 2:30 pm to 3:45 pm a second thought gave a new inspection & number of patients cancelled by the assessors was a huge number on account of being cardiac patients & minor ailments. MSR of MCI does not indicate any reduction of patients on subjective grounds. There are 650 beds as per MSR. The second count is unfair. Reason for this reduction in number of patients (bed occupancy) was not explained, & no ground was given for this reduction in number. Central register of OPD computer shows <sup>to carrying</sup> 1250 patients till 2 pm. OPD in surgical depths also match in different departments. Copy of computer generated Central registration numbers with time attached. RSaxena

Chirayu Medical College & Hospital

CMCH/Dean/2017/857

To,  
The Secretary  
Medical Council of India  
New Delhi

Date: 20.07.2017

Subject: Representation with regard to Pre-PG Assessment (Compliance Verification) conducted at Chirayu Medical College & Hospital, Bhopal (M.P.) on 20.07.2017.

Ref: MCI order No. MCI-34(41)(UG)/2017/Pre-PG/MP/Med/, Dated: 20.07.2017.

Sir/Madam,

Reference above, Pre PG assessment of Compliance Verification was done on 20.07.2017 by the team of MCI assessors.

The assessment report prepared by the assessors was based on purely subjective findings. Hence we are compelled to submit our representation against the negative reports with regards to OPD and IPD data.

1) OPD Attendance: As per MCI MSR the institute should have an average daily OPD of 1200 or more. We have submitted the OPD patients registered on 20.07.2017 upto 2 pm from the HIS database which is 1251, however the assessors reported the number to be 1043. It appears that it could be a mathematical mistake that's why we have provided a copy of computer printout of 34 pages starting from Sr. No. 1 to Sr. No. 1251. It is self explanatory document for providing the total number of OPD patients actually being 1251 and not 1043.

In the light of above facts the MCI is requested to overrule the assessors' remark.

2) IPD Patients (Bed Occupancy): Assessors in the report have mentioned that there were 138 patients found on bed in the General Medicine wards (150 Beds). The remark of assessor that he has rejected 38 patients on the ground that they were not fit for admission. The observation is purely subjective as the assessor belongs to department of Biochemistry and not Medicine.

24.7.17  
So (UG)  
PNA

JS(UG)  
21/7/17

Hence it is not justified to reject the patient as per his own wish. He has also mentioned that few of the photographs of such patients are attached. This is purely a subjective observation and does not conform to MSR. He has not given patient wise record providing his basis of rejection. This is against MSR.

In the light of above facts the MCI is requested to overrule the assessors' remark.

- 3) Same as per point no. 2.
- 4) Deficiency Rectified
- 5) Deficiency Rectified
- 6) The bed occupancy mentioned by the assessors is 66.6% which is unacceptable on following grounds: -
  - a) The assessors started ward rounds at 10 am. As per hospital record and database there were 544 patients on the beds in different wards. During the rounds each and every patients was interviewed and their diagnosis was discussed with the faculty. The assessor rejected these patients mostly, which is bad in law.

The details have not been submitted in assessment report.

Following is the detail of patient count:

Department	Patients on Bed	Patient counted by Assessor	No. of patients rejected by assessors
General Medicine	137	100	37
Paediatrics	24	24	00
TB & Respiratory Diseases	12	12	00
Dermatology	16	13	03
Psychiatry	04	04	00
General Surgery	107	73	34
Orthopedics	90	67	23
ENT	40	10	30
Ophthalmology	32	19	13
Obst. & Gynae.	82	77	05
<b>Grand Total</b>	<b>544</b>	<b>399</b>	<b>145</b>
General OT Complex	-	27	-
Obst. & Gynae. OT Complex	-	7	-
		<b>34*</b>	

**\*Previously they have counted 399 patients out of 544 patients and on the final count, on discussions they have added 34 patients which were in OT complex of Obst. & Gyane. and General OT.**

It is evident from the above facts that the assessors rejected 145 patients purely on subjective grounds which do not conform to MSR and this is bad in law. The 1<sup>st</sup> round for patients count started at 10 am where the assessors have noted down the number of patients totally 508. These sheets were hand written by the assessors and signed by ward incharge and faculty. Our request for issue of a copy of these sheets was summarily rejected.

The 2<sup>nd</sup> round started at 2:30pm in the surgery and allied wards and finished at 3:30pm. This round was a repetition of same patients but with substantial increase in further rejection of patients. We fail to understand the need of 2<sup>nd</sup> round intended to reduce the number of patient count to be well below the MCI requirement. It is worth noting that how is it possible to examine and rejecting 145 patients in one hour.

- b) During discussion the Dean requested to provide list of patients rejected and their reason of rejection. The assessors had not noted these details and hence refused to provide the said information.

Based on the above facts it is clear that the IPD patient count was not based on facts but purely on the whims of the assessors who did not follow the directives of MCI MSR.

The Dean and Medical Director tried to discuss the details of the patients rejected but failed to persuade the assessors.

This compelled the Dean to disagree with the remarks of OPD and IPD and these remarks were submitted in the assessment report page 15 of from A-III.

Point No. 7, 8, 9, 10 and 11 were rectified as per the assessors' report.

Deficiency of faculty was found to be 2.22%

Deficiency of Resident doctors was found to be Nil.

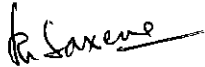

Hence there is no deficiency in the Faculty and Residents.

In view of the above facts, we request that the honorable MCI will ignore the remarks of the assessors which are totally arbitrary, unjust and unfair. We hope that an early decision in the matter is taken in our favour.

It is high time that the MCI should declare the no. of diseases for various departments because it is unending process of subjective decision of counting

and not counting patients of certain diseases only and omitting the other diseases which is left to the mercy of individual assessor.

Yours Faithfully,

Dean,

### 4. Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Data of OPD attendance given by the institute seems to be highly inflated	Assessors verified 313 OPD patients at 10.10 am. Peak inflow of the patients is attained after 11 am as they come from rural areas & distant villages. OPD attendance on the day of inspection was 1380 till 2 pm. The figures of 1380 is genuine for the day & not inflated.	OPD attendance – 1043, which is deficient compare to 1200 requirement as per MSR.

2	<p><i>After taking detailed round of wards &amp; enquiry with respective treating doctors &amp; paramedical staff, it was found that significant number of indoor patients in Medicine had minor ailments like URTI, Headache, Shoulder pain, weakness who did not require admission.</i></p>	<p>Patients come from far away villages of poor socio-economic status and once they come, they need complete evaluation and treatment before they go home.</p> <p>Admission of these patients by different teachers/ treating doctors of different departments is the subjective decision to admit, diagnose and treat them.</p> <p><b>In clinical practice, no patient may be considered as having minor ailment and overlooked unless investigated thoroughly &amp; proved otherwise; hence admission is required.</b></p>	<p>Deficiencies reported from GOI/MCI is still not rectified. Out of 138 patients in General Medicine only 100 patients are counted, because of trivial nature of complaints mentioned on admission records. Few of the photographs of such patients are also attached in DVD and Pen Drive submitted.</p>
3	<p><i>In Medicine wards, many patients were having malignancies of various types who were admitted just for bed occupancy. Similarly in Surgical wards, many patients were admitted for long without active management.</i></p>	<p>Malignancy is diagnosed and is being treated medically or surgically by our physicians and surgeons posted as Assistant/Associate Professor in General Medicine and General Surgery.</p> <p>Patients of Malignancy are good clinical material for under graduate teaching.</p> <p>Hence not counting number of Malignancy patients is not justified.</p> <p>There can be no patient labeled as</p>	<p>About Medicine wards, findings are as described in point no. 2 above.</p>

		superspeciality patient as we do not have any superspeciality department. Surgical patients take a longer time for diagnostic as well as fitness for surgery and consent/readiness of the patient for surgery. No patient is left unattended and in waiting in wards unless there is some specific reason.	
4	<i>Most of the patients admitted in O.G., Surgery, Tb &amp; Chest &amp; Skin &amp; VD wards were admitted for &gt;1 week without basic investigation and appropriate treatment as per their diagnosis.</i>	Patients are admitted, investigated and treated in minimum possible time. We assure that we will take utmost care with regard to the treatment of patients.	Deficiency rectified.
5	<i>On physical verification of Drugs dispensing register, only 231 patients were dispensed drugs on a day previous to day of assessment.</i>	Drug dispensing register is maintained for <b>free drug dispensing</b> only. Assessor noted 231 patients in this register. This number is for the patients who were provided the drugs free of cost. For drugs purchased by rest of the patients, separate entry is made in billing computer. However, many patients prefer to purchase drugs from outside.	Deficiency rectified.
6	<i>In view of above, bed occupancy is 64.37% as verified by assessors.</i>	Actually the bed occupancy on the day of inspection was 84.76% (551 out of 650 sanctioned teaching beds). The assessors have rejected 133 patients out of 551 on the basis of their own criteria.	Bed occupancy is 66.6% as verified by assessors

		<p>As per MCI requirement for UG, total number of patients in the hospital are counted for the purpose of calculation of bed occupancy. The count should not be department specific.</p> <p>(A) A total of 54 patients were not counted in the departments of ENT, Ophthalmology, Psychiatry, TB Chest &amp; Dermatology.</p> <p>(B) The assessors have also not counted 22 patients admitted in Medical wards on the ground of being the cases of malignancy. These patients should have been counted, as malignancy of all types is a part of UG curriculum.</p> <p>(C) There can be no patient labeled as superspeciality patient as we do not have any superspeciality department.</p> <p>If the above 76 patients are added to the assessors' number of 418, the total shall be 494 which is 76%.</p> <p>In addition to this, the remaining 56 patients were not counted on subjective grounds.</p>

7	<i>Data of laboratory investigations provided by the institute are grossly inflated and do not match with IPD &amp; OPD figures.</i>	As per Assessor's report <b>185 samples</b> were received till 12.45 pm. One sample is used for multiple investigations that includes Biochemistry, Haematology & other sections of the Lab. Samples were continually received even after Assessors' verification and figures given for Biochemistry, Haematology & other sections of lab are for the whole day and true as per record and in proportion to the number reported. The data shown by the institute is true & as per record. Number of tests are commensurate with the large number of OPD & IPD patients.	Deficiency rectified.

Comments:

- 1. Dr. Rohit Singh, Assistant Professor in the department of TB was not paid any salary at the time of faculty verification his salary was shown to be credited in his bank account in the evening on the day of assessment.

Comment by Dean : Number of admitted patients in morning at 9 AM on 20.7.17 is 544 on teaching beds. <sup>& is</sup> having 508 patients. No. of patients counted by Assessors at 10 AM & 11 AM alongwith signatures of professionals & Nursing staff is with Assessors. In afternoon at 2:30 pm to 3:45 pm a second thought gave a new inspection & number of patients cancelled by the assessors was a huge number on account of being cardiac patients & minor ailments. M.S.R of MCI does not indicate any reduction of patients on subjective grounds. There are 650 beds as per MSR. The second count is unfair. Reason for this reduction in number of patients (bed occupancy) was not explained, & no ground was given for this reduction in number. Central register of OPD computer shows <sup>1250</sup> patients till 2 pm. OPD in surgical dept also match in different departments. Copy of computer generated Central registration numbers with time attached. Dr. Rajeev

2.6 Clinical material (\*Random verification to be done by the Assessor).

Assessor should randomly verify the monthly data and fill accordingly in the daily average columns, specifying the months

Item	On Day of assessment 03.05.2017	Remarks
O.P.D. attendance at 2.00 PM On first day	1380	Appears highly inflated as at 10.10 AM it was 313 only as per MRD record.
Casualty attendance (24 hrs. data)	46	On taking round only four patients were seen in casualty beds.
No of admissions	102	
No. of discharges	95	
Bed occupancy% at 10.00AM on first day	64.37% (418 pts out of 650 beds)	As per clinical data submitted by Dean, it was shown that bed occupancy was 85% on the day of assessment. After taking detailed round of wards and enquiry with respective paramedical and treating doctors it was found that significant number of indoor patients in medicine had minor ailments like URTL, headache, shoulder pain, weakness who did not required admission. In Medicine ward many patients were having malignancy of different types which were admitted in medical ward and shown for bed occupancy. Similarly in surgical side many patients were admitted for long without active management.

551 patients on bed  
Counted & reported 418 by Assessors.  
Rest patients not counted.  
due to reasons that will be explained in detail.
