### 4. Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Shortage of Residents was 12.64% as detailed in the report.	Some Residents (SR/JR) were not counted by the assessor due to various reasons however now we have appointed Residents as per MCI requirement and qualifications. Hence no deficiency.	No deficiency of residents.

2	After taking round of the hospital, it was found that actual number of patients admitted at 10 a.m. was only 401 out of 650 beds giving Bed Occupancy of 60.33%. This will go down even further if patients who do not merit admission are excluded.	On the day of inspection 607 patients were admitted which comes about 81%. However, assessor has counted only 401 patients means more than 200 patients were not counted by the assessor as in his opinion these patients did not required hospitalization and few patients were admitted on the day of inspection. IPD of 3/5/17 List attached	Bed occupancy at 10 am is 88%.
3	Many patients in various wards did not require hospitalization. Several patients had vague complaints which certainly cannot be labelled teaching material.	Patients are admitted by consultants on their wisdom according to ailment or disease of Patients. Further our humble submission is that for MBBS student basic clinical teaching is required on an average patient.	As per our observation around 8 to 10% patients were admitted for trivial complaints.
4	Many patients were shown to be admitted on 02/05/2017 but on asking by assessors they informed that actually they had reported only today (i.e. day of assessment 03/05/2017).	Patients were admitted on day of Admission mentioned on the files.	----
5	A large number of patients have been admitted to-day (i.e. day of assessment) and equally good	On an average 100 patients are admitted every day as evident from Clinical Data. So accordingly the Number of patient is same.	Admissions on assessment day is 73 upto 2pm.

	number were shown to be admitted on a day prior to day of assessment.		
6	Clinical material is deficient.....	Monthly average of Clinical data of June-2017 is attached and that of 17-18 and 19 July 2017 is also attached. Sufficient Clinical material as MCI norms is available. OPD slips are also now computerized so deficiencies are rectified.	Deficiencies rectified.
7	In PICU only 1 patient was admitted.	Adequate number of patients are available as on date and the deficiencies are rectified.	MICU- 11 out of 11 NICU- 4 out of 5 PICU- 4 out of 5
8	Only 4 beds are available in NICU & 2 beds in PICU against 5 each required.	In MSR PICU/NICU requires 5 Beds so we have made provision for 6 Beds however now 5 Beds in NICU and 5 Beds in PICU are provided separately so deficiencies are rectified.	Rectified
9	Other deficiencies as pointed out in the assessment report.	-----	-----
