4. Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Deficiency of faculty is 44.33%	<p>On the day of inspection assessors came at 10.00 AM. They asked to call all the faculty and residents at Dean office to sign the attendance sheet. Accordingly the message was conveyed to all faculty and residents. Two of the assessors went for hospital round and one assessor remained at Dean office. When all the faculty / residents gathered at Dean office, they were called one by one to sign the attendance sheet. The process was abruptly stopped at 11:00 AM, even though many of the faculty and residents were waiting for their turn to sign the attendance sheet. All such faculty and residents, who could not sign, were not considered, even though they were present outside of Dean office before 11.00 AM, waiting for their turn and to be called by the assessors.</p> <p>All many of the faculties were in OT, many were conducting clinics and some had night calls, so came late by 5 - 10 minutes. They were not counted.</p> <p>So apparently it seems that there is deficiency of faculty.</p>	Deficiency of faculty 2.83% (3 out of 106)

		<ul style="list-style-type: none"> Actual deficiency of faculty is TB & Chest – Professor – 1 ENT – Professor – 1 <p>So deficiency of faculty is 2 out of 106 i. e. 1.89 %.</p>	
2	Shortage of Residents is 79.03%	<p>Many of the residents could not sign the attendance sheet because of the reason mentioned above.</p> <p>On the day of inspection most of the residents had gone for last round of counseling on 31st May 2018 for PG admissions (MOP UP/Personal round). They reported late on 1st June 2018 and they were not counted.</p> <p>Actual shortage of Residents is Nil (List attached).</p>	Shortage of Residents 3.22% (2 out of 62)
3	Bed Occupancy is 21.48%	<p>Renovation (repairs, paintings etc) work of few of the wards was going on. Alternate arrangements were made temporarily for patients in these wards. Assessors did not consider these alternate arrangements and the patients kept there were not counted. So the bed occupancy seems to be less. Actual bed occupancy on the day of inspection was 82 %.</p> <p>Now, all the wards functional.</p>	Bed Occupancy at 10a.m. on 13.08.2018 is 78.93% (371 out of 470 beds).
4	Wards of TB & Chest, Psychiatry, Skin & VD, ENT were closed.	The wards were under renovation (repairs, paintings etc) process, so they were temporarily evacuated. Alternative arrangements were made for these wards. But assessors did not consider	The Wards of TB & Chest, Psychiatry, Skin & VD, ENT are available as per ward wise and functioning with admitted patients.

		the alternative arrangement. Now, the repair work has been completed and all the wards are functional. So the deficiency has been rectified.	
5	Wards of General Medicine, General Surgery, Orthopaedics, male & female patients are kept together.	Few wards were under renovation (repairs, paintings etc) process, and alternative arrangements were made for these wards. At some place, this alternative arrangement for males was near the near the female ward, but in separate ward areas. So apparently it looked like male and female patients were kept together. In fact, they were kept separately. We have separate wards for male and female patients for all the departments. So the deficiency is rectified.	In wards General Medicine, General Surgery, Orthopaedics are kept ward wise / unit wise (male & female separated) and functioning with admitted patients.
6	Data of clinical material provided by the institute are inflated.	There is no inflation of the clinical data. Actual data is provided.	Data of clinical materials have been examined physically and recorded in A-III form.
7	Casualty: Disaster Trolley is not available	Functional Disaster Trolley is available.	Casualty Disaster Trolley is available.
8	ICU: There were only 2 patients in NICU / PICU.	NICU/PICU had 2 patients at 10.00 AM. But at 2:00 PM there were 4 patients in NICU/PICU.	In NICU/PICU there are 6 patients admitted.
9	3 Mobile X-Ray machines are available against requirement of 4.	Four mobile X-Ray machines are available.	4 Mobile X-Ray machines are available.
