		<p><b>are given below:,m</b></p> <p>Kolhapur Municipal Corporation letter No. Health/Birth &amp; Date Reg./331/2017, Dated 7. 4. 2017, confirming the receipt of <b>Birth registration Forms</b> and the <b>Registration Dates</b> of the above babies born on 20 March 2017 at our hospital is attached.</p> <p><b>(Annex 1)</b></p> <p>Also attached is the photograph of each mother and their baby, Aadhar card of the mother and Birth registration Forms deposited by our hospital to Municipal Corporation, Kolhapur.</p> <p><b>(Annex 2)</b></p>	
2	In male Medicine ward, 2 patients were found with blank case sheets.	<p>All case sheets are written at the time of admission.</p> <p>At the relevant time in all 79 patients were admitted in the male medicine ward. Every patient is allotted IPD number. While mentioning the remark, respected assessor has not mentioned about the IPD numbers of those two patients to whom the reference is made.</p> <p>It is our submission that no patient is on the bed without written case sheet and treatment instructions.</p> <p>The assessor was accompanied by Professor and Head of the Department of Medicine. He also states that the assessor has by mistake taken the photos of Discharge Summary Sheet which is completed at the time of discharge of the patient.</p>	<p>On verification in Male medical ward case sheets found with notes.</p> <p>Deficiency rectified.</p>

3	In female Medicine ward, 16 patients were found lying on beds without bed sheets. Bedside shelf of patients were empty without drugs.	<p>Bed sheets are changed in the wards in a systematic manner.</p> <p>The dirty/soiled bed sheets were being changed on the beds mentioned when the assessor came for the visit.</p> <p>Routine medication which is free is given by the nurse directly from the medicine Trolley during her round. Bed sides are used to store only routine articles and medicines prescribed from outside.</p>	<p>Beds in female medical ward are furnished including bedsheets &amp; pillow covers.</p> <p>Deficiency rectified.</p>
4	Some patients in wards were admitted due to trivial complaints like low backache, dizziness, etc	<p>No specific case is described for a pointed answer.</p> <p>However, Pre-operative insulin dose adjustments are done on IPD basis as uneducated and rural patients cannot be managed for this on OPD basis.</p> <p>Trivial complaints of some patients are the presenting complaints and not the diagnosis. Also, it is ensured that no important finding is missed in patients. Most of our patients are from rural background and they usually have fewer follow ups. Hence they are retained in the ward till detailed examination and treatment by the specialist is done.</p>	<p>On random verification of patients it is found with reasonable complaints.</p> <p>Deficiency rectified.</p>
5	In Casualty, 15 patients were admitted on day of assessment for trivial reasons.	<p>Our hospital is often first point of contact for patients from distant villages. It behooves on us to admit such patients on both social grounds as much as on medical grounds.</p> <p>Once seen by the specialists, if these patients do not harbor any major disease, they are discharged early. Sometimes on the same day itself.</p>	<p>There were NINE patients in casualty and TWO patients in OBGY casualty which requires admission.</p>

		<p>The CMO calls the doctor of Unit on Call of the respective specialty to examine the patient in casualty and if necessary shift serious patients to the respective wards or ICUs. Hence the casualty does not hold serious patients for long.</p> <p>Some patients coming to casualty at odd times are detained for observation and are discharged once no serious problem is found.</p> <p>Also, the casualty register often notes the presenting complaint (which may be trivial) and not the final diagnosis.</p>	
6	In O.G. ward, many women having Normal Delivery were kept for longer period than required.	<p>It is fitness of both the newborn and the mother that determines the time of discharge. When the newborn baby is having medical problems like prematurity, hyper bilirubinemia, fever, or any issue warranting admission, the stay of the mother gets prolonged. At times mother also has the medical or surgical causes as reason for the prolonged stay.</p> <p>Our hospital policy is not to unnecessarily prolonged hospital stay of the patients.</p>	Not observed such cases on verification.
7	In Paediatrics ward, a few of children are in the ward without merit of admission.	<p>No patient is admitted without a complaint and some cause for hospitalization. This is even truer for the vulnerable pediatric population.</p>	Not observed such cases on verification.

8	Several wards like Male Medical, Female Medical, Male Surgical wards are not as per MSR Regulations as detailed in the report.	Our Wards are as per MSR.  To substantiate this, we are attaching the photographs of the concerned wards. --- <b>Photos Attached(Annex 3)</b>	Deficiency rectified.
9	<i>Other deficiencies as pointed out in the assessment report.</i>  a) The institute did not provide videographer during time of inspection. Photographs taken by assessor on mobile	The videographer was provided.  The assessors reached the college around 10 am and asked for videographer to be arranged.  The videographer arrived at 10.45 am and did the recording as was instructed by assessors.  The CD made shows the assessor visiting microbiology and clinical laboratory areas. --- <b>CD Attached. (Annex 4)</b>	Institute provided Videographer at the time of Assessment.
	b) The resignation letters of Faculties/resident/tutor after last inspection could not be provided.	The relevant resignation letters were handed over to the coordinator but she refused to accept them as some of them were handwritten. ---- <b>Resignation Letters Photocopy Attached(Annex 5)</b>	One Tutor in Anatomy(Msc Medical Anatomy) & One Senior Resident in Medicine have joined after last Assessment & enclosed reliving letter from the previous institute.

Deficiency of mismatch of data remains as it is.</p>	<p>the central registration counter. Then they proceed to the specialty OPD. The patient's name is entered in the Specialty Department Register only when the patient enters the consulting room (O.P.D.) to be examined. It is seen that there is an error in calculation of number of patients registered at the Central Registration Counter for the department of Obstetrics &amp; Gynecology at 11.30 am. The total of (56 + 02) is mistakenly written as 77 by Assessors instead of 58. Out of 58 patients entered in central registry, 49 patients were found recorded in Obstetrics &amp; Gynecology departmental registry, as they were already seen by the doctors in Obstetrics &amp; Gynecology OPD. Remaining 9 patients were waiting outside the OPD chamber. On the day of assessment, there were 160 patients registered till 4.00 p.m. and they were all examined and treated. A copy of Central Registry and Departmental Registry is enclosed herewith</p>

their respective OPDs.

- The Faculty members, Senior & Junior residents were called for attendance before 11 am before one MCI Assessor who was seated at the college, while two MCI assessors were carrying out the round of the hospital. The hospital and medical college are at a distance of about 1.5 km, which is within MCI permissible limits.
- The names of remaining patients were entered in the Departmental Register after they were examined in O.P.D., Once consultants and residents resumed their duties after signing the attendance before MCI Assessor, the names of remaining patients were entered in the Departmental Register once they were examined in O.P.D. The OPD of concerned departments on the day of assessment at 4 pm is shown as under. This matches well with Central Register.

4. Minor discrepancies appear because sometimes the number of patients recorded in OPD is less. This is due to the fact that some patients do not report to the respective specialty OPD. **(NO SHOW)**. This is seen in serial number 2 and 8 above. This figure may vary between **3% to 5%**. Similarly, conscious and purposeful cross referencing between the specialty OPD, to seek opinion of other specialists for other additional complaints can result in excess of number of patients recorded in OPD as seen in serial number 3 above.

2	<i>False register was found in Gynaecology OPD without OPD No. Name &amp; Date.</i>	As all faculty members were in Medical College for morning attendance signature before MCI Assessors, the respective person for whom the duties were assigned to monitor the records of OPD was not in place. Every department has its own policy to maintain medical records concerning patients which are seen in the department. This record like OPD, Specialty registers and special record of patients which are to be followed in future for correspondence. The Public Relation Officer looking after Gynecology department hurriedly showed correspondence register that was in concerned with special correspondence of the patients who were to be followed later. This is original register and not a false register. This record is abundant.	The registers had the relevant data

**Other Observations:**

1. Nursing hostel: In one dormitory 145 nursing students were residing in a cramped environment  
In another dormitory 121 staff were residing
2. The wards are contiguous, communicating with one another, the beds of the patients are placed head on and not as per MSR guidelines and have a potential for nosocomial infections.
3. In the ENT ward, male and female patients were kept in the same ward.
4. Some of the Senior residents without PG qualification of various departments, were not counted due to non availability of salary proof and / non availability of form 16 for the 3 year period of JR post MBBS.
5. Some of the JRs were not counted due to no proof of stipend after January 2016, which can be verified from the attendance sheet and declaration forms
5. SRs and JRs were all paid the same amount of stipend/salary.

<b>Notes:</b>
<b>For purpose of working out the deficiency:</b>
(1) The deficiency of teaching faculty and Resident Doctors shall be counted separately.
<b>(A) For Teaching Faculty:</b>
(a) For calculating the deficiency of faculty, Prof., Assoc Prof., Asst. Prof & Tutor in respective departments shall be counted together.
(b) Any excess teaching faculty in higher cadre can compensate the deficiency of lower cadre of the same department only.
(c) Any excess teaching faculty of lower cadre/ category in any department cannot compensate the deficiency of any teaching faculty in the higher cadre/category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor.
(d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.
<b>(B) For Resident Doctors:</b>
(a) Excess of SR can be compensated to the deficiency of JR of the same department only.
(b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department.
(c) Any excess of JR cannot compensate the deficiency of SR in same or any other department.
(d) Any excess/ extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR. e.g. excess of Assistant Professor cannot compensate the deficiency of SR or JR.
(2) A separate department of Dentistry/Dental faculty is not required where a dental college is available in same campus/city and run by the same management.
(3) Colleges running PG program require additional staff, beds & other requirements as per the PG Regulations - 2000.
