#### 4. Verification of compliance submitted by institute:2,

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Deficiency of Faculty is 12.4% as detailed in the report.	As represented in our letter dated 04/05/2016 to the President/ Secretary, Medical Council of India, we would like to reiterate that some of the Faculty members from Clinical side were on strike during the time when the Assessors of MCI came into the campus for conducting inspection. The striking Doctors retreated immediately on seeing the MCI Assessors. They were then sent for giving attendance. However, quite a few staff members (over 25 faculties and Residents) were able to reach the Lecture Hall within 5 to 10 minutes after the stipulated time limit. Consequently, they were not taken into consideration for Head counting which resulted in the deficiency of 12.4 % in	Attendance Sheets with Signatures of Faculty, Tutor, JR and SR were received by the Assessors by 11 AM, which was verified by respective Assessor and found to be deficiency 1.64 %.  Those who newly joined / promoted after last inspection(27.4.2016), their Declaration Forms were verified and attached with this report.

		<p>respect of Faculty and 8.8% in respect of Resident. These doctors have appeared and been accepted as faculties many times in the earlier (surprise) inspections at AVMC.</p> <p>As a matter of fact, faculties were available adequately as per MCI Norms on the day of inspection and they are available even now.</p>	
2	Shortage of Residents is 8.8% as detailed in the report.	- do -	As verified by each Assessor, there is no shortage of Residents
3	Bed occupancy was 53.8% as verified by Assessors at 10 a.m. on day of Assessment	80% of Beds were occupied on the day of inspection. But, quite a few patients went to Lab and Radiology Departments for their investigations at 10.00am when Assessors took rounds in the hospital. These patients were not counted and hence the deficiency.	Bed occupancy at 10 AM is 76.8 %
4	OPD attendance figures provided by Institute appear to be inflated.	It is a Rural based Hospital with people of Low Socio Economic Status. Most of our patients will generally reach the OPD after attending their household duties. The OPD attendance will touch the maximum around 12 noon. Adequate number of OPD patients are attending regularly.	OPD Attendance at 2PM was 872 on the day of inspection.

	In Paediatrics OPD, only 6 children immunized in 2 days	In spite of the strike of faculties, we were able to give immunization for 6 patients on 26 <sup>th</sup> & 27 <sup>th</sup> of April 2016. Normally, we used to get 10 to 15 patients daily for immunization purpose. This trend is now being maintained.	Immunization Day has been scheduled once in a week on every Wednesday by Government and 55 children were immunized on the last Wednesday (20.7.2016), as verified from the record.
5	Data of Clinical Material, Radiological & Laboratory Investigations provided by Institute appear to be inflated.	Adequate Clinical materials are available.	Data of Clinical Material, Radiological and Laboratory Investigations up to 2PM are mentioned in this report.
6	In Histopathology no sample was received on 26th & 27th April 2016.	Due to faculty strike no major surgeries were done on 26 <sup>th</sup> April 2016 and hence, no biopsy specimens were sent to Pathology department.  On 27 <sup>th</sup> April 2016 – 20 biopsy specimens were sent to Pathology department. Usually biopsy specimen will reach the Pathology department after 3.00 PM daily. Hence, specimens were not available at the time of Assessor's visit in the morning.	No. of samples of Histopathology is mentioned with this report.
7	Other deficiencies as pointed out in the Assessment report.	Nil	Nil
