**4. Verification of compliance submitted by institute:**

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Deficiency of faculty - 3.1%	Faculty and Residents deficiency was 3.1% and 4.6% respectively as one Professor in Pulmonary Medicine, one Associate Professor in Radiology and four Senior Residents (Gen.Medicine-1, Paediatrics-1, Orthopedics-1 and Radiodiagnosis-1) were on leave on the day of assessment ( <b>Annexure-I</b> ); hence they could not present themselves for the inspection. However the <u>deficiency of faculty and residents</u> was below 5%.  It may be kindly noted that we have excess faculty & residents in addition to the MCI requirement in the departments mentioned in <b>Annexure-IA</b>	① Faculty Deficiency was only 1 (one) at the rank of Professor of Pulmonary Medicine since he was physically not present during assessment. All other remained <del>② papers regarding</del> full.  ② 4 (four) Senior Residents from various disciplines (as noted in earlier report) was present during the assessment.
2	Deficiency of Residents - 4.6%

3	Building occupancy certificate from competent authorities - not mentioned available	Occupancy certificate under the Gazette of Puducherry Part-I clause 17 of the Puducherry Building Bye-Laws and Zoning Regulation was introduced in 2012, all our buildings were constructed prior to this except for the latest additional building under construction (Copy of the Gazette is enclosed - <b>Annexure - II</b> ). A copy of the planning permit issued in April 2017 is enclosed ( <b>Annexure - IIA</b> ).	Relevant documents submitted  <i>Copy of the requisite documents was checked and verified. These are enclosed.</i>
4	Ba, IVP - Nil	Number of Ba, IVP done was 1 (one) in IPD on the day of assessment which is mentioned in the Assessor Report (page.20) in the column of Radiological Investigations ( <b>Annexure - III</b> ). Barium investigations are now done rarely as we have Department of Gastroenterology, which does endoscopy with biopsy. Hence the numbers are low. IVP etc are also low as we have a 128 slice CT scan and high resolution USG.	<i>As per the report submitted on the day of assessment (08-04-2019) number of special procedures e.g. Barium and IVP was one (1) for OPD and Two (2) for IPD has been enclosed.</i>
