|---|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3 | During verification Faculty & Residents have produced photocopy of telephone bill which were found to be fake. Nobody produced original bill. They were not knowing their own number, confessed that institute had given this to them today. Dean has not signed on these in most of the forms. These faculty and residents were not considered.           | Due to surprise inspection, the faculties are not able to produce their original bills as they are not having with them.<br>A copy of letter issued by the Telecom Deputy General Manager, Trichy for BSNL telephone numbers is also enclosed as Annexure – I.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | During the verification of faculty and resident doctors, all of them had produced required ID proof and documents for residence identifications.<br><br>Hence, deficiency rectified.                                                                                                                                                                                          |
| 4 | Resident hostel was visited by all assessors on 2 <sup>nd</sup> day in the morning. No male residents except one (SR of Emergency Medicine) were staying in room. Only 19 ladies residents were found to be staying. However, this was also doubtful as no water cooler on any floor, no lift for a G+5 floors building, no mess (only small dining area). | During the time assessors visit to the Residents Hostel by morning 10.00 a.m., almost all the residents were in the duty at the hospital.<br><br>When the residents were asked to come from their duty at the hospital, the assessors completed their visit.<br><br>As regards the observation of water cooler in each floor it is submitted that the institution has its own RO plant and the water is supplied through pipeline to all the hostels. In addition, the water cans had also been kept in each floor including the dining hall. The water purifier is also available inside the dining area.<br><br>Still photographs of RO plant, water cans an each floor of the hostel, Water cooler in dining area are enclosed as Annexure – II. | There were 32 rooms for Male Residents and 20 rooms for Female residents of double occupancy which will occupy 64 male resident doctors and 40 female resident doctors.<br><br>All required facilities are available in both male and female resident quarters as per requirements.<br><br>Mess facilities available with adequate sitting arrangements.<br><br>Complied with |

| 5 | Many faculty members and residents are commuting from villages / towns which are 35km to 60kms from institute. Their daily presence and work in institute is questionable.                                                                                                       | Our hospital is located in rural area. Many of our faculties are regularly coming from Perambalur, Ariyalur, and Trichy. The faculty members who are commuting from adjacent areas of Perambalur and Trichy have been provided with adequate transport by the institution to commute.                                                                                                                                                                                                                                                                                                                                                                                                                                         | Complied with                                                                    |
| 6 | OPD attendance as verified by assessors was 350 on day of assessment against requirement of 1,200. When assessors reached the institute, there were hardly 10-15 patients in the whole OPD block. Afterwards, institute brought healthy people for inflating the OPD statistics. | When the assessors arrived at OPD registration counters by 10.00 am, few patients were waiting. However since the majority of the patients are coming to the hospital from rural areas, the flow in the OPD picks up after 11.00 a.m only.<br><br>OPD attendance on the day of assessment was more than 1250 by 04:00pm, but during the assessors visit to central OP registration they have noted OPD attendance as 350 which was old patients data alone instead of 1090 (i.e New-749, Old :341) by 1.00 p.m. By 4.00.p.m. the OPD attendance was 1485.<br><br>Copy of OPD registration details of 11 <sup>th</sup> and 12 <sup>th</sup> April, 2016 and last six months average OPD details are attached as Annexure – IV. | Sufficient numbers of patients were present in OPDs during the inspection hours. |

|----|---------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| 7  | Bed occupancy was 46.6% on day of assessment against 75% required. There was unnecessarily prolonged admission in many cases.                           | In fact Bed Occupancy was 79% (515 patients) during the assessor rounds at 10.30 a.m. to Indoor wards. The assessors visited only few of the wards and noted the figure 303. Bed occupancy report of last six months is attached along with the data of the day of inspection i.e 11 <sup>th</sup> and 12 <sup>th</sup> April, 2016 as Annexure – V. | Bed occupancy on the day of assessment was <b>75.38 %</b> (490 patients out of 650 beds)                                                     |
| 8  | There were only 6 Major & NIL minor operations for the whole hospital on day of assessment. There was NIL operation on Orthopaedics, Ophthalmology.     | Institute has 9 Major and 3 Minor O.Ts.<br><br>Actual surgeries performed by the end of the day were 18 Majors & 15 Minors. OT list for 11 <sup>th</sup> April, 2016 and photographs of all OTs is attached as Annexure –VI.                                                                                                                         | There were 10 Major Surgeries (6 Ongoing and 4 waiting) and 11 Minor surgeries on the day of assessment.                                     |
| 9  | There was NIL Normal Delivery & NIL Caesarean section on day of assessment.                                                                             | At the time of visit to the Labour Complex by the assessors, no deliveries were performed.<br><br>However, after 12.30 p.m. 2 normal deliveries took place. A photocopy of the relevant portion of the delivery register is enclosed along with the birth intimation form sent to the village authorities, attached as Annexure – VII.               | There were 4 patients in labour room at the time of inspection. One patient was posted for cesarean section which was found to be justified. |
| 10 | Data of OPD attendance, Casualty attendance, Number of patients admitted, Laboratory investigations workload provided by institute are highly inflated. | The data provided by the institution was genuine and not inflated as reported. Data of OPD attendance, casualty attendance, admitted patients investigations for the last six months is enclosed as Annexure – VIII.                                                                                                                                 | OPD & Casualty data is attached                                                                                                              |
| 11 | Workload of special investigations like, Ba, IVP was NIL on day of assessment.                                                                          | 4 special investigations carried out on the day of assessment. List is attached as Annexure – IX.                                                                                                                                                                                                                                                    | Workload of special investigations like, Ba, IVP was NIL on the day of assessment.                                                           |
