		<p>Assessors and does not match with the actual bed occupancy as submitted by the Medical superintendent because of following reasons.</p> <p>a. Many of the patients were sent to the Radiology, Laboratory Services, and Anesthesia Check Up, Operation Theater, OPD Consultation and Counseling.</p> <p>b. Children admitted under the Pediatric Department were in the child play room, and some had been sent to the vaccination room for scheduled immunization.</p> <p>c. Many patients were on the discharge process on the day of the visit and therefore were not included in the count of Bed Occupancy.</p> <p>d. 6	Normal deliveries and Caesarian - Nil	One patient was seen by assessor Dr. Shivkumar who visited the labor room at around 12.30pm. The same patient had normal delivery at 6 pm in the evening which could not be verified by the assessors since by that time they were in the process of leaving the Institute. Further one LSCS procedure was performed at 08:00PM.	One Normal Delivery (Patient Name: Nisha Shaw) Cesarian Nil.
7	Ba & IVP - Nil in OPD	The clinical material submitted by the Institute clearly indicates that one case of Barium Swallow and one case of IVP were done for 2 OPD cases which has been duly accepted by the assessors. (please see Assessors form A II, page no. 17) Hence no compliance is required in this case.	Ba - not done. IVP - 02 cases

Presently also, the USG machine is placed there to maintain the privacy of the patients instead of keeping it in the Casualty Ward. Hence, no compliance is required.	Available in Casualty

Hence most of the time, there are no patients available in Septic Labour Room & Eclampsia Room in most of the hospitals as is true for our hospital too.	Adequate

13	Deficiency of Resident by 100% (66/66).	We would like to state that there is no deficiency of Resident Doctors in the Institute. All the Resident Doctors were rejected by the Assessors because they didnot visit their hostels and hence they presumed that there is no Resident Doctors in the Institute. Many Resident doctors have also signed in the attendance sheet available with the Assessors before 11.00 am. This contradiction in reporting of hostel accommodation as nil as well as reporting 100% deficiency of Resident Doctors has seriously disturbed the interest of the Institution. Resident Doctors (30 in no.) had performed night duty and were post duty off. They should have been allowed to	Deficiency of Resident is 21.28% (14 out of 66).

Therefore, if the above mentioned Faculty Members and Residents who were present and on leave had they been considered by the Assessors for which we have pleaded many a times before the Assessors, there would have been only one deficiency (Associate Professor in the department of Radiology). Therefore, from the above submission it is apparent that with respect to clinical material, resident hostel, student hostel, non teaching accommodation and all other deficiencies as pointed out during previous Assessment held on 26th & 27th November, 2018 have been rectified to the satisfaction of the Assessors.

Thus we would request you to consider sympathetically and empathetically about granting permission for the Academic Session 2019-2020 in view of debarment of the college for the Academic Sessions 2017-2018 and 2018-2019. Sir/ Madam, you can understand with only one batch of students how difficult the journey has been since 2016-2017 academic year to till date. We are fervently requesting you to provide us an opportunity for admitting students in the academic session 2019-20.

Thanking You
Yours Truly
